

"We've got to protect  
the land."

"We've got to boost  
the economy."

When it comes to energy, they're both right. So how can we satisfy both — right now? At ConocoPhillips, we're helping to power America's economy with cleaner, affordable natural gas. Focusing our efforts on safely accessing one of our country's most abundant resources creates jobs. Reduces emissions. And helps answer both their concerns.

To find out why natural gas is the right answer, visit [PowerInCooperation.com](http://PowerInCooperation.com)
